On September 13, 2017, the Board of Directors (the “Board”) of Pixelworks, Inc. (the “Company”) committed to a restructuring plan to integrate the recent acquisition of ViXS Systems Inc. which would result in an approximately 15% reduction in workforce, primarily in the areas of development, operations, sales and administration. The Board believes adoption of this restructuring plan will help streamline the Company’s operations and workforce, and more appropriately align the Company’s operating expenses with current revenue levels. The Company expects the restructuring to be substantially completed by the end of the Company’s fourth quarter ending December 31, 2017 and expects to incur total estimated restructuring charges of approximately \$2.0 million related to employee severance and benefits. The Company currently expects that these charges will largely be recorded in the third quarter of 2017 and will result in cash expenditures of approximately \$2.0 million, which expenditures are expected to occur primarily in the third quarter of 2017.

As a result of the restructuring, the Company expects to realize annualized savings of approximately \$4.0 million.

On September 14, 2017, the Company issued a press release announcing the restructuring plan. The full text of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K.

Pixelworks Streamlines Organization Following Recent Acquisition of ViXS Systems

Positioned to Capitalize on Significant Synergies with Increased Focus on OTA Market

San Jose, CA, September 14, 2017 -- Pixelworks, Inc. (NASDAQ: PXLW), a leading provider of visual processing solutions, today announced actions to streamline the organization as part of planned integration efforts following the Company's acquisition of ViXS Systems Inc. ("ViXS") in August. The restructuring eliminates redundant and non-strategic expenses, which include an approximate 15% reduction in total workforce in the areas of development, operations, sales and administration. Pixelworks expects to realize approximately \$4.0 million of annualized compensation expense savings, beginning in the fourth quarter of 2017, in addition to achieving other significant revenue and operational synergies as result of combining the two companies.

Todd Debonis, Pixelworks' president and CEO, commented, "This realignment further streamlines the organization, reflecting continued execution on our ViXS integration plan and increased focus on the rapidly emerging OTA market. In addition to these initial cost savings, we also expect to achieve significant revenue and operational synergies by leveraging the sales channels, product development and customers of the combined company. Today's announced actions appropriately align Pixelworks' operating expenses and strategic initiatives, as we aggressively pursue our near- to intermediate-term growth and profitability objectives. The integration process is expected to be completed by year-end, which we believe will result in further cost benefits, and we remain fully committed to the transaction being accretive in 2018."

The Company expects to incur total charges of approximately \$2 million related to employee severance and benefits, which will largely be recognized in the third quarter of 2017. The organizational changes and any associated severance charges are anticipated to be substantially completed by the end of Pixelworks' fourth quarter ending December 31, 2017.
